South Jakarta Regency, DKI Jakarta Province, Indonesia 12230

Highly motivated Nanotechnology Engineering graduate from Airlangga University with experience in data analysis, research, project coordination, and reporting through academic and community projects. Strong in problem-solving, organizing tasks, and working with others to achieve project goals. Passionate about project development and business, particularly in supporting planning, progress monitoring, and data-driven decision-making. Adaptable, detail-oriented, and comfortable working in cross-functional teams. Fluent in Indonesian and English, with working proficiency in Japanese and Korean.

EDUCATION LEVEL

Airlangga University – Surabaya, Indonesia

Sep 2021 – Feb 2026

Bachelor of Engineering (S.T); Majored in Nanotechnology Engineering

- **GPA : 3.32 / 4.00**

- **Relevant Coursework:** Data Analysis; Business and Commercialization on Nanotechnology; Nanotechnology Applications in Industry; Lab Management and K3; Materials and Metallurgy; Environmental Nanotechnology

Dwiwarna High School – Bogor, Indonesia

Jul 2018 – Jun 2021

Mathematics and Natural Science

- High School Diploma : 88.33 / 100
- Ranked 9th among the top 10 graduates at SMA Dwiwarna in 2021
- Ranked 8th in academic excellence at SMA Dwiwarna in 2021

Morioka Chuo High School – Iwate, Japan

Feb 2019

Certificate in Intensive Japanese Language and Cultural Immersion Program

- Completed an intensive program focused on Japanese language fundamentals and cultural studies in an international learning environment.
- Engaged in a homestay to gain firsthand experience of Japanese community interactions and traditions, strengthened adaptability and awareness.
- Represented the school in a sister-school student exchange partnership program, fostering intercultural understanding and collaboration.

INTERNSHIP EXPERIENCE

PT. Kimia Farma Tbk. Unit Plant Jakarta – Pulogadung, East Jakarta

Sep – Oct 2025

Quality Assurance Internship (Technical Support)

- Supported comparative dissolution testing and pharmaceutical quality evaluation using HPLC and UV-Vis spectroscopy.
- Ensured sterile manufacturing operations and quality control systems for injectable and oral pharmaceutical products.
- Organized pharmaceutical equipment inventory data entry and updated digital records in accordance with internal documentation procedures.

RESEARCH EXPERIENCE

Undergraduate Thesis Research Project

Mar – Dec 2025

- Thesis: "The Effectiveness of Hyper-Cross-Linked Polymeric Resin (ICY-AM) for Tetracycline Adsorption"
- Conducted a research focused on developing and evaluating a newly invented *Isocyanurate-aminoethylamine* (ICY-AM) resin for the adsorption of tetracycline, an emerging water pollutant. The project demonstrated the potential application of resin as an environmentally friendly adsorbent material for wastewater treatment.

Nanocomputing Research Project

Aug – Dec 2023

- Developed and evaluated Evybactin as a potential anti-tuberculosis drug candidate through in silico studies (molecular docking and molecular dynamics simulations) targeting DNA Gyrase A of *Mycobacterium tuberculosis*.

ORGANISATIONAL & VOLUNTEERING

Community Services – Community Empowerment Program – Banyuwangi, East Java

Jul 2024

Staff of Logistics & Equipment Division

- Managed logistics operations, including inventory control, equipment distribution, and asset tracking for multiple community service projects.
- Executed community service projects focused on education, environmental sustainability, public health, and economic empowerment in rural area.
- Delivered workshops on digital literacy, parenting, and stunting prevention while collaborating with local schools and village stakeholders.

Festival Dwiwarna 2020 – Bogor, West Java

Jul 2019 – Feb 2020

Head of Mathematics Competition

- Directed the overall Math Competition, overseeing event planning, judging and scoring processes, and coordination with participating schools.
- Oversaw budgeting and event operations, ensuring efficient management of logistics, prize allocation, registration, and technical briefing.

ROHIS DWIWARNA – Bogor, West Java

Jul 2019 – Feb 2020

Head of Mosque Prosperity Division

- Managed mosque operations and facilities, ensuring cleanliness, maintenance, and a supportive environment for worship and educational activities.
- Coordinated religious and community programs by collaborating with other divisions to organize events, study circles, and service initiatives.

SKILLS

- **Technical:** Problem Solving | Project Collaboration | Analytical Skills | Process Improvement | Reporting & Documentation | Logistics & Inventory Control
- **Functional:** Data Analysis (Microsoft Excel, SQL, OriginPro, ImageJ) | Report Writing (Microsoft Word) | Data Visualization (Microsoft PowerPoint, Tableau, Power BI) | Design (Canva, Figma) | Molecular Design (Chimera, HyperChem, Dock6, GaussView)
- **Languages:** Indonesian (Proficient) | English (Advanced) | Japanese (Upper Intermediate) | Korean (Intermediate)
- **Certifications:** TOEFL ITP (560) | JLPT N4 (92)
